

Why CureMD?

- ▶ Corporate Stability
- ▶ Award winning All-in-One Solution
- ▶ Advanced Web Technology
- ▶ Easy to Learn & Use
- ▶ 10,000 + Satisfied Users
- ▶ Fast Implementation
- ▶ 32+ Specialties
- ▶ Affordable
- ▶ Microsoft® .NET Platform

“ We have long recognized the value that EMR brings to a practice and its patients, but complexity and cost has kept us from implementing one.

CureMD struck me because of its ease of use, affordability and availability of enterprise features in one integrated solution. ”

[Dr. John Muney - AMG Medical Group](#)

“ CureMD massively impressed me with both its comprehensive Web architecture and innovative services like DRT and RCM. I have seen CureMD steering my practice rapidly from adoption toward Meaningful Use while helping improve quality, safety and efficiency. ”

[Dr. Thomas Sanderson - Sanderson Medical Center](#)

“ CureMD staff is extremely friendly and always seems to understand me. I only wish my patients were the same. ”

[Dr. Arun Patel - The Brooklyn Hospital](#)

All-in-One Solution

- ▶ Electronic Health Records
- ▶ Electronic Prescriptions
- ▶ Electronic Labs
- ▶ Document Imaging
- ▶ Clinical Knowledgebase
- ▶ Clinical Decision Support
- ▶ Device Interoperability
- ▶ Patient Education
- ▶ Enterprise Practice Management
- ▶ Enterprise Scheduling
- ▶ Intelligent Billing
- ▶ Workflow Management
- ▶ KPI Dashboards
- ▶ Data Mining Reports
- ▶ Patient Portal
- ▶ Practice Website
- ▶ Medical Billing
- ▶ Discrete Reportable Transcription
- ▶ Consulting
- ▶ 24/7 Help
- ▶ Free Upgrades

Practice Meaningful Use Guaranteed

With CureMD EHR

- ▶ Get the highest ROI
- ▶ Receive up to \$44,000-\$64,000 Meaningful Use Incentives
- ▶ Receive 2% PQRI Incentives
- ▶ Receive 2% ePrescribing Incentives
- ▶ Reduce Transcription Costs
- ▶ Improve Coding
- ▶ Maximize Collections
- ▶ Reduce Unnecessary Tests
- ▶ Reduce Duplicate Orders
- ▶ Decrease Risk of Medication Errors
- ▶ Decrease Insurance Costs

Benefits

- ▶ Increase Revenue
- ▶ Reduce Cost
- ▶ Decrease Risk
- ▶ Enhance Quality
- ▶ Information Availability
- ▶ Enhance Productivity
- ▶ Ensure Compliance
- ▶ Higher User Adaptability

Data Mining Reports

Welcome to the Data Mining Reports:

CureMD's data mining reports provide essential decision-making knowledge of all your practice transactions and patient encounters. With rich search criteria options, users have the ability to search for and transfer desired information into paper or electronic format and create printable color reports that are exportable to MS Word, MS Excel, and Rich Text Format.

These reports are organized into logical groups to facilitate advanced searching. The Reports Module uses self-explanatory names that reveal the purpose and functionality of each report. Enterprise reporting features allow practices to better manage their internal billing, accounting, clinical and practice management processes.

The process for using CureMD data mining reports is simple and intuitive. Users simply click on the name of the appropriate report and then follow the same search process used elsewhere in the application to locate patients, appointments, procedures and other information. Online Help is available to explain the purpose, flow and the expected information for each Report. To access this help, simply click on the question mark (?) in the upper right-hand corner of each report screen.

In the event that you have any difficulty viewing a report, please contact your Practice Administrator.
